Details of the pre-application advice received
It is recognised that the principle of an open market dwelling in this location is acceptable in principle given the extant Class Q permission.
No particular concerns in regard to the dwellings relocation because the building is largely within the same location as the existing structure.
The proposed residential garden is intended to expand to the existing proportions of the site, this would appear to be a natural expansion which would not appear excessive nor uncharacteristic within the rural locality.
Policy HOUS6 - 'It is expected that replacement dwellings will be of a similar size to the original dwelling (within 10% by volume) unless it can be shown that a larger development results in a benefit to the character or appearance of the area.'
It would be recommended that the scale of the proposal is brought inline with the expectation. Should the resultant dwelling fall outside of the 10% increase then the benefit of its increase should be evident.
Authority Employee/Member
With respect to the Authority, is the applicant and/or agent one of the following: (a) a member of staff (b) an elected member (c) related to a member of staff (d) related to an elected member
It is an important principle of decision-making that the process is open and transparent.
For the purposes of this question, "related to" means related, by birth or otherwise, closely enough that a fair-minded and informed observer, having considered the facts, would conclude that there was bias on the part of the decision-maker in the Local Planning Authority.
Do any of the above statements apply?
